Intellectual Property

Choosing Fangda

Overview

Founded in 1993 and one of the most prestigious law firms in the region, Fangda Partners has more than 900 lawyers. We serve a wide variety of major clients – including large MNCs, global financial institutions, leading Chinese enterprises and fast-growing Hi-tech companies – on an extensive range of commercial matters through our network offices in Beijing, Guangzhou, Hong Kong, Nanjing, Shanghai, Shenzhen and Singapore, offering PRC law and Hong Kong law.

Practice

We provide a full range of services in the intellectual property areas. We are best known for our extensive experience of handling intellectual property litigation in China, in-depth understanding of key technical sectors and the ability to manage multi-jurisdictional litigation. We are the preferred choice of clients in myriad industries on patent, trademark, copyright, trade secret and IP-related antitrust law matters.

People

Our team members have backgrounds in various technical fields, enabling us to communicate efficiently with clients in different industries. We also have former judges and patent examiners in our team, providing local expertise within a global context.

Recognition

Our international reputation is attributable to the high quality of our services, the ingenuity of our strategies and the depth of our local knowledge we apply to tackle the most challenging IP issues. We have been frequently named as a leading practice by major international and regional professional journals and publications, such as Chambers & Partners, Managing IP, Asia Law, Asia Legal Business, Asia IP, China Law & Practice and others.

Intellectual Property Trial Practice

With our extensive knowledge of legal structure, technologies, and industry practices, we have advised clients in all types of intellectual property litigation. We provide our clients with practical and commercial assessment of the legal risks and returns associated with each potential or actual dispute. We have successfully prosecuted and defended infringement actions before courts around the country. These include:

Unfair Competition, FRAND Litigation & IP - related Antitrust Investigation

As one of the first law firms in China to develop a practice in the area of anti-unfair competition, FRAND litigation and IP-related antitrust investigation, we have been highly successful in the past years at representing clients to tackle IP-related antitrust and anti-unfair competition challenges.

FRAND Litigation and IP-related Antitrust Matters

FRAND litigation and IP-related antitrust matters are growing fast in China. We are one of the few Chinese law firms to have built up significant expertise in this area. We represented:

- **A leading technology company** in an antitrust and FRAND-related litigation against another major technology company before the Beijing IP Court concerning the licensing of patent portfolio essential for telecommunication standards.
- **A leading technology company** in its defense in antitrust-related litigation filed by a Chinese digital accessories company before the Beijing IP Court concerning MFi certification.
- **InterDigital** in antitrust and FRAND-related lawsuits filed by several implementers of the wireless telecommunication standards before the Shenzhen Intermediate Court, Guangdong High Court, Jiangsu High Court and the PRC Supreme Court, including the first-ever case in this area filed by Huawei.

IP Transaction and Regulatory Practice

Licensing and Advisory Work

We advise on domestic and cross-border transactions involving procurement, acquisition, assignment or use of rights in technology, brands, patents, copyrights and other forms of IP. Such transactions include franchising, licensing, distribution, outsourcing, contract manufacturing, joint ventures, mergers & acquisitions, strategic alliance and technology research and development.

Our team also works closely with the firm's corporate and private equity departments to identify and evaluate IP assets in mergers & acquisitions, joint ventures and private equity deals and to secure the transfer, assignment and protection of those assets.

We also advise clients on a full range of IP-related issues such as High & New Technologies Enterprise qualification, employee-inventor reward and compensation, import and export of restricted technologies, and R&D outsourcing.

Anti-Counterfeiting

We are traditionally strong in anti-counterfeiting and anti-piracy enforcement in China. By working extensively with the relevant government authorities, we effectively assist in administrative and criminal actions to crack down on counterfeits and piracies in China.
