# TMT Practice Overview

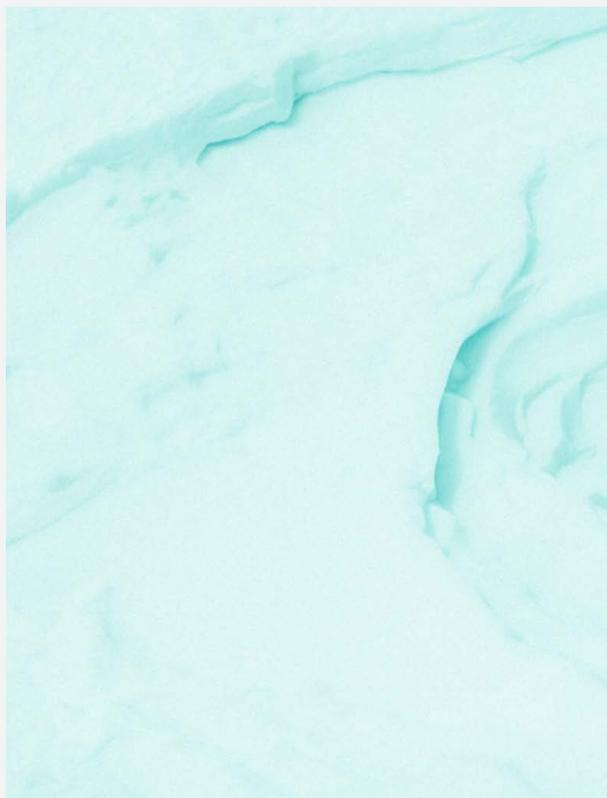

Fangda Partners' TMT practice is one of the most experienced and professional legal teams in China. We have won numerous awards and are widely acknowledged for our expertise in the market. Our major competitive advantages include:

## Extensive Project Experience

Over the past three decades, our team has provided professional TMT legal advice for tens of thousands of companies, investment institutions and government bodies, covering the full range of technology innovation, including traditional telecommunications, e-commerce, new media, big data, Internet of Things, artificial intelligence, cloud computing, fintech, internet education, intelligent logistics, and biomedicine. Our TMT practice provides a full range of legal services, including those relating to investment and financing, restructuring, M&A, personal information and data protection, cross-border data transmission and cybersecurity compliance, antitrust, and intellectual property.

## Elite Professional Team

We have 18 partners and 74 lawyers specializing in TMT across offices in Beijing, Shanghai, Guangzhou, Shenzhen and Hong Kong. Our team comprises leading partners each with more than 15 years' experience in the industry and dozens of senior lawyers each with 10 years' experience. The core members of our team are not only well versed in TMT matters, but also have worked closely together for many years, giving us a unified and well-coordinated team that other law firms cannot match. Most of the lawyers in our team have both Chinese and foreign legal qualifications and/or experience and are fluent in Chinese and English. They are very familiar with the local needs and preferences of Chinese clients, while bringing global sensibilities, for example in our knowledge of international best practice.

**Technology and Telecommunications- Outstanding**

*Asialaw Profiles, 2024*

**TMT: PRC Firms- Tier 1**

*Legal 500 Asia Pacific, 2024*

## **Ability to Handle Complex Transactions and Deliver Innovative Legal Solutions**

We have established a reputation for our keen business acumen, ability to handle complex transactions and deliver innovative legal solutions. Over the years, we have led and participated in numerous groundbreaking or other novel and complex projects. We are able to design flexible and effective commercial and legal solutions to the complex and novel issues faced by our clients.

## **Seamless Full-scale Service**

We are well-known for providing seamless TMT legal services for clients. We assist in the formation and financing of all types of private equity funds, and in their investments in and exits from target companies. This includes trade sale and other mergers and acquisitions, IPOs, recapitalizations and other capital market transactions. We also assist TMT companies in external financing, investments, M&A and IPOs and subsequent capital market transactions. We advise companies on antitrust filings, assisting on merger control filings and developing antitrust compliance programs. We further provide seamless one-stop services covering network security and data protection solutions, IP infringement litigation, unfair competition and trade secret litigation, patents, trademarks, copyright and IC layout applications and registrations, among the full range of issues our clients face.

## **Excellent Market Ratings**

Our TMT practice and senior partners have received numerous awards and top ratings from prestigious institutions. Fangda has been ranked in Band 1 PRC law firms for Technology, Media and Telecoms by Chambers Asia Pacific for many years, and won special recommendations and honors from The Legal 500, China Business Law Journal, Asialaw Profiles and other legal media.

# Private Equity and Investment Funds

Fangda Partners was one of the first Chinese firms to provide comprehensive legal services for private equity and investment funds. We have maintained a market-leading position as we continue to provide expertise throughout the four phases of investment: from formation and financing investment, and project management to exit. We have advised on numerous private equity and investment fund projects, including establishment of domestic RMB funds and overseas US dollar funds. We are adept at combining PRC and international legal analysis to provide cross-border legal services covering a wide range of complex transactions, including equity, debt and mezzanine financing.

## Our legal services for private equity and investment funds include:

- > Formation and fundraising of all types of private equity funds (private equity and venture capital funds, funds of funds and other private investment platforms, etc.)
- > Investment in private equity funds by government guidance funds, funds of funds and other investors' investment in portfolio companies by private equity funds
- > Management of investments in portfolio companies by private equity funds
- > Exits by private equity funds, including trade sale and other mergers and acquisitions, IPOs, recapitalizations, and other capital market transactions
- > Financing of fund transactions, liquidation of private equity funds

Our private equity and investment fund team and our senior partners have received numerous awards and top ratings from prestigious institutions. Fangda has been ranked in Band 1 PRC law firms for private equity and investment funds by Chambers Asia Pacific for many years.

# Shaping the Future Together

## Mergers and Acquisitions

M&A is one of our core practices. For many years, we have been a market leader in China and are widely recognized for our expertise and experience. In recent years, our team has represented numerous international and domestic public and private companies in many high-profile and complex transactions. In these transactions, our team has demonstrated a core competency in providing holistic professional services and advice to our clients, a profound understanding of the Chinese legal and regulatory environment, an integrated knowledge of tax, finance and business, and a comprehensive ability to gain deep insights into clients' needs and an ability to find solutions that meet the expectations of all parties.

### **Our legal services for M&A include:**

- Structuring transactions and advising on transaction-related matters
- Conducting legal due diligence
- Negotiating and drafting transaction documents
- Advising on required approvals
- Providing legal opinions as per the requirements of clients or regulatory authorities
- Advising on pre-closing, transitional and post-closing integration issues

Our M&A team and senior partners have received numerous awards and top ratings from prestigious institutions. Fangda has been ranked in Band 1 PRC law firms for M&A by Chambers Asia Pacific for many years.

## Creating an Ecosystem

With the emergence of more and more TMT companies, China's top five companies in TMT - BAT and TMD (Baidu, Alibaba, Tencent, Meituan and Didi) - keep expanding their footprints while building stronger ecosystems. Many TMT companies are endeavoring to develop independently and go public, or form strong alliance with their peers, while more companies have joined the BAT and TMD ecosystems.

Here are some of the high-profile deals on which we have advised:

Representing Alibaba in its acquisitions of, or investments in, e-commerce, fresh food, mobility, new media, fintech and other technology companies

*Creating China's TMT ecosystem.*

Representing Didi in its merger with Kuaidi and Uber  
 Represented Didi in its investment in OFO  
 Represented Didi in its strategic cooperation with Xpeng Motors  
*Building a full-spectrum mobility service operator*

Advising on the merger of Meituan  
 Dianping and Meituan Dianping's acquisition of Mobike  
*Establishing China Internet Plus Group*

Representing Yunmanman in its merger with Huochebang  
*Assisting in the megamerger in China's online freight transport industry*

Representing China Music Corporation in its merger with QQ Music  
*Creating a diversified online music platform in China*

Representing Anjuke in its merger with 58 Tongcheng  
*Assisting in the megamerger in China's online city life industry*

Represented Cainiao in its investment in Air China Cargo and acquisition of Dianwoda  
 Represented Cainiao in multiple rounds of financing  
*Accelerating the construction of a smart logistics network*

# Hong Kong IPO

## Extensive and Diverse Project Experience

We have assisted over 40 companies from dozens of sectors, particularly TMT, with their IPOs in Hong Kong. We are able to identify key points and challenges in the early stage and recommend effective and feasible solutions or preventions to companies and sponsors, and actively move projects forward on schedule.

## Shrewd Business Acumen and Innovative Legal Solutions

Our team is known in the market for our shrewd business acumen and innovative legal solutions. Over the years, we have led and participated in numerous novel and complex projects. Against the backdrop of an increasingly stringent and complicated regulatory environment in Hong Kong, we are able to design flexible and effective legal solutions to sophisticated and novel issues faced by our clients. In addition, we are expert in helping companies and sponsors enhance and underscore the highlights of company business models in their IPO documents and in handling difficult legal issues flexibly with their business interests uppermost, which allows us to help companies achieve their business objectives at the lowest possible cost while complying with regulatory requirements.

## Long-term Cooperation with Chinese and Foreign Investment Banks

Our team has maintained long-standing relationships with almost all major Chinese and foreign investment banks in the Hong Kong capital markets. We are well-versed in the legal and compliance requirements within each investment bank, especially the standards and criteria for various due diligence reviews by sponsors and their risk appetite. With this knowledge, we can help companies and investment banks move forward with their projects in the most efficient manner.

## Recent Hong Kong IPO Deals

We have assisted a number of TMT companies with their IPOs in Hong Kong, including: WuXi XDC, YSB Inc., Kingsoft Cloud, XPeng Motors, New Horizon Health, Cheshi, Baozun, GDS, BeiGene, WuXi Biologics, Kepei Education, Koolearn, Activation Group, WuXi AppTec, E-House, Rici Healthcare, Linekong Interactive, Hua Hong Semiconductor, HKBN, Tian Ge Interactive, Boyaa Interactive, BYD Electronic, Kingsoft, O-Net Communications and Alibaba.com.

# Focused Practice Areas

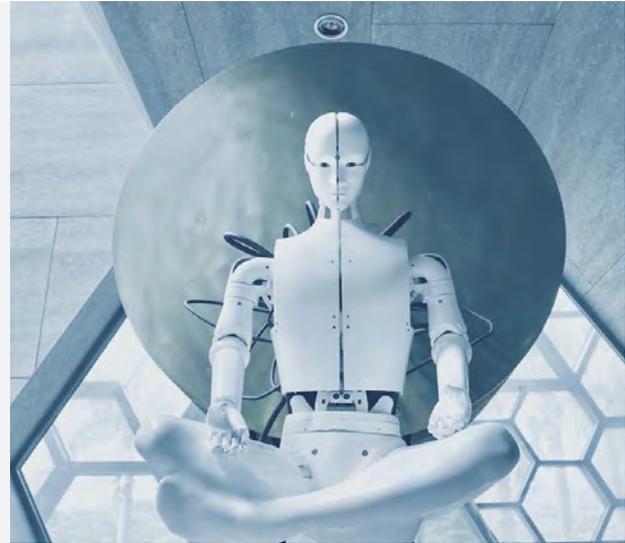

# Artificial Intelligence

In just a few years, AI has rapidly moved from the research stage to being used by businesses and individuals. The potential of AI is huge, yet also presents challenges. The business world has noticed and shifted its focus from big data, cloud computing, and other technologies to AI.

The last 200 years have seen the rapid development of society, mostly driven by general-purpose technologies such as steam, electricity, computers, and the internet. Today, it is AI that is rivaling those earlier technologies.

Chinese TMT giants are actively deploying AI technology. Baidu's full commitment to the AI industry and Alibaba's equity investment in facial recognition, autonomous driving, and other applications herald the beginning of a revolution touching every aspect of the economy and society.

## Our Recent AI Matters

- Representing investors in their equity investment in Inspir.ai, a world-leading AI platform company
- Representing investors in the financing activities of Face++, a leading AI company providing facial recognition services in China
- Representing investors in their investment in Zhuiyi Technology, a leading Chinese AI company that applies deep learning and natural language processing to the enterprise service market
- Representing 4Paradigm, an AI technology and service provider and an innovator of data technology-driven industry applications, in its financing activities
- Representing Excelland AI, a unicorn company specializing in indoor and outdoor delivery robots, in its financing activities
- Representing several investors in their investment in Keenon Robotics, an AI enterprise committed to providing intelligent unmanned delivery solutions for global enterprises
- Representing investors in their investment in DeepRoute.ai, a company mainly engaged in L4 autonomous driving business
- Representing investors in the financing activities of Autolink, a company mainly engaged in the research, development and system integration of in-vehicle intelligent terminals and related service platforms, as well as the sale of products and services
- Representing investors in the financing activities of Bombax Corporation (Xiaolce), a company providing AI customer service
- Representing investors in their equity investment in AlInnovation, a leading enterprise AI solutions provider in China
- Representing investors in the financing activities of YITU Tech, a company building a leading intelligent security platform, including precision facial recognition and vehicle identification technology
- Representing investors in the financing activities of Pony.ai, an AI company engaged in the research and development of fully autonomous self-driving vehicles
- Representing Momenta, an AI company specializing in the research and development of self-driving technology, in its multiple rounds of financing
- Representing investors in the financing activities of Horizon Robotics, a provider of AI core technologies and system-level solutions
- Representing investors in their investment in SenseTime, a world-leading developer of deep learning platforms, focusing on building AI vision engines, facial recognition, security technology, autonomous driving, among other applications.
- Representing investors in the financing activities of ROKAE Robotics, a leading manufacturer providing intelligent manufacturing solutions and AI industrial robots
- Representing investors in their investment in Plus AI, a company focusing on AI technology and the research and development of autonomous driving technology
- Represented the investors in their financing of Govion, an industrial AI intelligent machine vision application system solution provider

# Enterprise Service

There is great uncertainty surrounding the future of the cloud service industry. Since they come from different backgrounds and have their own intentions, cloud service enterprises are destined to emphasize their own development. The accelerated arrival of 5G, IoT and AI will allow a wider range of industry applications. Any of the integration of IaaS + PaaS, the integration of public cloud + private cloud + CDN, or the coordination of “cloud + network + edge” should help cloud service enterprises to develop more systematically.

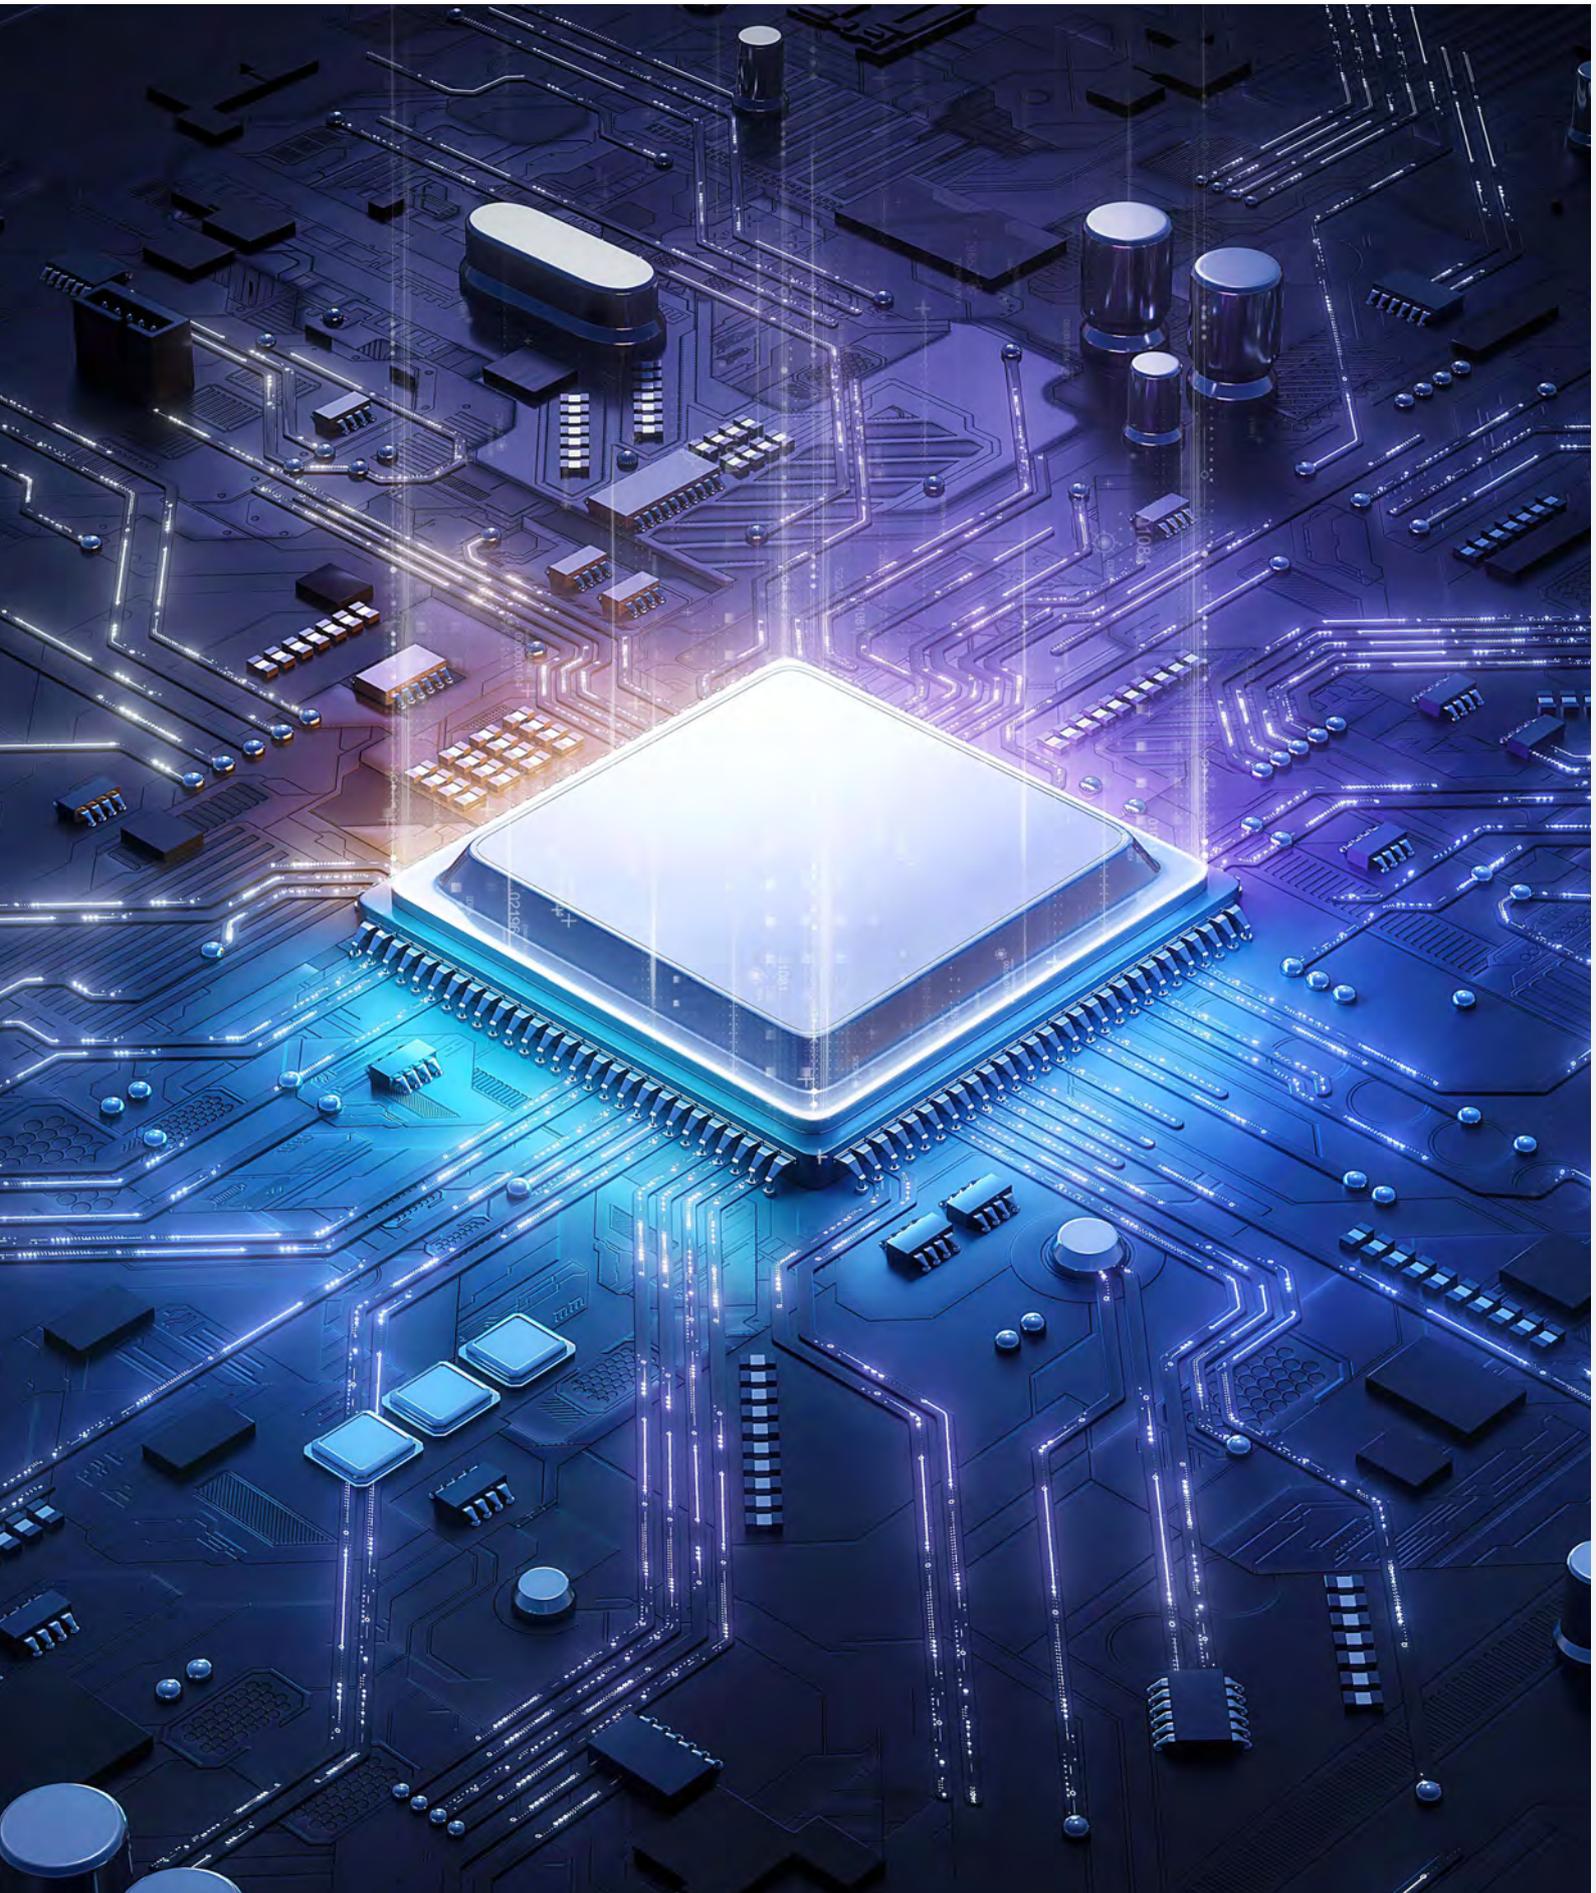

## Recent Notable Matters

- Representing Kingsoft Cloud, a leading cloud service provider in China, in its acquisition of controlling interest in Camelot, and, as its PRC counsel, in its IPO on the NASDAQ and HKEX
- Representing investors in their equity investment in UCloud, a well-known neutral cloud computing service provider in China

- Represented the investors in their equity investment in Beisen Cloud Computing, a leading talent management cloud platform in China.

# Semiconductors & Smart Hardware

The artificial intelligence and digital logic revolution have created the greatest value-creating opportunity for the semiconductor industry in decades. As AI evolves, hardware demands will change for computing, memory, storage and networking, which will produce different demand trends. The best semiconductor companies will learn about these trends and seek innovation to help AI hardware ascend to a new level. In addition to benefiting their bottom line, they will become the driving force behind AI applications that change our world. We have the knowhow and expertise to help these businesses take advantage of the growing opportunities.

## Recent Notable Matters

- Representing Rohinni BOE, a US-based micro LED technology company, in its establishment of a Sino-foreign joint venture in Hefei

- Representing Innovusion, a company focusing on the development and manufacture of LIDAR used for intelligent driving, in its multiple rounds of equity financing

# Logistics

The annual Double 11 shopping festival is not only a carnival for consumers, but also a crucial market for all major e-commerce companies. Double 11 has become an all-round competition in terms of commodities, marketing, technology, data and logistics for e-commerce platforms. A growing number of companies, ranging from e-commerce giants such as Amazon, Alibaba and JD.com to small enterprises, begin to improve their logistics capacities to meet the increased demand of customers for high-quality delivery services.

## Recent Notable Matters

Representing **YHGlobal**, a smart logistics supply chain enterprise, in its financing

# Big Health

We assist clients in the big health industry in China, which covers the provision of preventive, diagnostic, treatment, rehabilitation and palliative medical products and services in order to provide a comprehensive range of products and services that cover healthcare over the entire lives of people, both in sickness and in health. Our clients in the big health industry operate in the pharmaceutical industry, pharmaceutical commerce, medical services, health products, and healthcare services, among other fields. Recently, we have been helping our clients position themselves for the future as hospital construction and medical and healthcare informatization becomes a focus of China's development with the rapid promotion of "Internet plus" and Public Private Partnerships (PPP) by the Chinese government. In short, we are guiding our clients to maximize their potential as China develops its big health industry, both in terms of industry segmentation and structural rationalization.

## FANGDA PARTNERS 方達律師事務所

### **The pre-eminent China-based full-service firm**

Fangda has long been renowned as one of the few leading law firms in greater China. Founded in 1993, Fangda is one of the first PRC law firms to offer a full range of services to domestic and foreign clients, having approximately 800 lawyers in seven offices located in Beijing, Guangzhou, Hong Kong, Nanjing, Shanghai, Shenzhen and Singapore.

Fangda provides seamless service to clients through outstanding lawyers delivering excellent value. Our lawyers have decades of experience in advising clients on all their investment, capital markets, M&A, financing, intellectual property, regulatory compliance, litigation, arbitration and tax requirements. We have been consistently recognized as a leading law firm in every area of business in which our teams practice by Chambers Asia, China Law & Practice, IFLR 1000, Asian Legal Business, PLC Which Lawyer, Dealmakers Monthly and ASIAN-MENA COUNSEL.

### **Local expertise combined with international standards**

Fangda attracts some of the best lawyers in China. Some are recruited directly from law schools and other experienced lawyers come from top domestic and international law firms, as well as government agencies.

Most of our lawyers have both extensive domestic practice experience and solid international backgrounds. Our teams consist of lawyers qualified in mainland China, the US, the UK and Hong Kong. Many of our partners and lawyers were educated in the US or the UK and have years of work experience in the US or leading "Magic Circle" law firms.

## A full range of services across practice areas and regions

Fangda is one of the few Chinese law firms that truly operates as a single and integrated partnership. As a unified full-service law firm, we provide consistent services across a wide range of practices and regions.

## Top ranking derived from client trust

As one of the most respected law firms in China, Fangda has been given the highest ratings in all the leading legal benchmark publications.
